### **Your secret solution**

Bye Bra is a specialist in shaping, strapless and backless solutions.

### **An inclusive collection**

Our products are conceived to empower all women, unleashing their femininity in total safety; regardless of age, size, body type or skin tone. We offer a wide range of strapless and backless adhesive solutions, allowing any woman to wear any outfit in total comfort. Most products range from A to E cup with specific items up to H.

With 5 shapewear lines (S to XXL) with different shaping power (low, medium, high), we are able to satisfy the needs of every client.

We also offer a wide range of nipple covers, underwear solutions and bra accessories.

### **A never out of stock collection**

Our full collection is permanent and never out of stock, so retailers do not have to worry about end of season markdowns. Replenishments are fast and easy as all our products are available in stock in the Netherlands.

Customer satisfaction is high and return rates are negligible, making Bye Bra the perfect complement to an existing lingerie, evening dress or bridal collection.

### **Certified & guaranteed quality**

At Bye Bra we put the health & safety of our customers at the core of our work. Our adhesive products are the safest available on the market. We work with world leading suppliers of medical tapes and glues: 3M and Henkel.

All our products are dermatologically approved, non-irritating, hypoallergenic REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) and PROP65 compliant.

# Adhesive Bras

We offer a wide range of adhesive bras in multiple styles, tones and finishes.

All styles are designed to offer a strapless and backless solution and range from cup A to E (with the exception of the Glam Bra specifically designed for larger cups ranging from C to G). Check the size chart at the bottom of the page to find your perfect fit.

The product lines are extremely clean and minimal as we eliminated visible stitches whenever possible. The different colours are matching the rest of the products in our collection, so that you can build a set by combining an adhesive bra with a shapewear bottom, padded panties or our laser cut underwear.

The lace finishing adds an extra touch of femininity to the functionality and minimal design of the garments.

All bras are reusable up to 25 times. All they need is a bit of care. They can be delicately hand washed paying extra care to the adhesive part. All our bras are dermatologically approved, non-irritating and hypoallergenic.

Expert tip:

Make sure your skin is free of lotions and creams as this will compromise the effectiveness of the adhesive.

The adhesive protective films have to be stored and reapplied on the products after using it for ultimate preservation of the glue.

# Pull-ups & Lifts

Our Pull-ups and Lifts work on the same fitting principle as our tapes, to deliver a strapless and backless solution. They are made of 100% moulded silicone cups or fabric moulded cups with strong adhesive to create the perfect lift and shape you are looking for.

All products are very durable and reusable up to 25 or 50 times depending on the adhesive.

They are all dermatologically approved and hypoallergenic.

# Invisible shapewear

Our Invisible Shapewear collection covers a wide range of styles in 3 different colours: Beige, Light Brown and Black.

Designed to smooth your figure and shape with comfort. With 20% elastane the collection combines a very soft and cozy hand feel, with a good shaping power.

The entire collection is stitch-free, with hems realized by folding and thermally gluing the fabric.

You can combine tops and bottoms and you can even mix and match with our adhesive products, as the colours are matching.

Expert tip:

Do not miss our invisible bra tops. One of our different models will become your new favorite. No more uncomfortable wired bras, but supported wire free bras to wear every day in extreme comfort.

# Soft touch seamless shapewear

Our newest Seamless collection is ultra soft and feels like a second skin, even though it is real strong shapewear. With this new group we cover a wide range of different styles. It is available in 2 colours and from size S-XXL.

The Soft Touch Seamless Styles offers targeted support and sculpting for your lower stomach & waist and smooths your tummy while being comfortable enough for everyday shapewear.

The different briefs enhance the natural shape of waist and smooths core with no visible panty lines.

The different tops provide support and shapeliness without sacrificing comfort or adding bulk. The supple feel and seamless construction make these pieces an everyday layering staple that enhances your body's natural shape.

The bodysuits hold in your core, shapes and smoothen your body. The sheer butt pockets prevent flattening and it's whisper-soft, seamless construction and high-cut leg makes these pieces an essential for enhancing your body's natural shape.

Expert tip:

All Pieces can be combined with each other and we have a few very special items in this range, like the ultra low back bodysuit, the open bust bodysuit which can be worn with any type of bra and our reversible bra top. Which can be worn at 2 sides and both have a different neckline shape.

# Sculpting shapewear

Minimal look, clean lines, laser cut, high intensity...

The Sculpting Shapewear collection is extremely thin and thanks to its very high percentage of elastane (41%) it will deliver the best performing shaping power available in our collection so far.

The handfeel is luxurious, soft and dry. Hems are laser cut and enriched with silicone strips on the inside, to help the garments stay in place. Thanks to the thin and dry fabric, the laser cuts are extremely clean.

Doesn't matter if you are a size S or a size XXL, the sculpting collection will radically change and smoothen your figure.

Expert tip:

High waist brief and thong are an every day must-have and perfect to wear in all seasons.

## Special solutions

All our solutions are special, but some are more special than others.

This category offers a wide range of products, all here to help you when you need them the most ;)

Our Strapless and Ultra plunge bras are a perfect solution if you prefer a more traditional bra over an adhesive solution. One can be totally strapless, while the other will allow you a super deep décolleté both front and back.

Our 3 new waist trainers offer a different kind of waist support and control, so that you can choose the one that is best for you.

All unique pieces, but very important and not to be missed in your wardrobe.

Expert tip:

The Ultra Plunge bra is a great piece to have in your closet! It is the ultimate solution to wear deep plunge outfits and maintain a great push-up and firm fit.

The very strong metal 'U' shaped wire at center front makes sure the cups stay on the right position and hold the natural plunge. The wing and underbust are made wider than normal to give optimal support and the whole bra is smooth and clean finished.

Sometimes the smallest box contains the most amazing surprise. Discover our extensive collection of bra accessories, nipple covers and much more.

Do not miss our thigh bands. Beige or black, in plain fabric or in lace, they are the perfect anti-rubbing thigh solution.
